

Steel Non-propelled Rock Cutter for Bluff Harbour Board

Messrs. Lobnitz Y.N. 1131
(Millen Bros. 165)

IT IS SUBMITTED that before this case receives consideration the Glasgow Surveyors should be requested to state if the plan of pumping arrangements on the above vessel (Drawing No. 19212) which was "Noted" in the Glasgow Secretary's letter of 10.11.52 to Messrs. Lobnitz has subsequently been approved since the vessel is now intended to be classed. Copies of this plan should be forwarded to this Office for record purposes and for transmission to the New Zealand Surveyors.

The Glasgow Surveyors should also inform us if the electrical plans have been prepared by the local contractors or whether they will be submitted by the New Zealand Surveyors. If the electrical plans have been prepared locally, these should be approved and copies forwarded.
