

m.s. "BREEZE"

The Liverpool Office have telephoned this morning to say that this new motorship had put into Holyhead with a breakdown of the machinery.

Mr. Stuart of the Liverpool Office is proceeding to Holyhead to carry out an inspection with a view to issuing a certificate.

As the vessel is only shown Class Contemplated in the Register Book the Liverpool Office were informed that the First Entry Reports had been forward and that the posting of the class had been probably delayed owing to non-payment of fees.

N.B. The fees have now all been paid & the full class of the vessel is in course of posting

E

24th November, 1933.

BREEZE.—Holyhead, Nov. 20.—Motor vessel Breeze, Glasgow for New Zealand, has put into Holyhead with engine trouble.

—Holyhead, Nov. 21.—Motor vessel Breeze: Builders sending new parts to-day; engineer requires Lloyd's Surveyor after completion.

Lloyd List 22/11/33

For the Chief Engineer Surveyor to note
