GENOA, 18th November, 1946.

Messrs. Lloyd's Register of Shipping  
Piazza Cavour  
Genoa.

Motor Tanker "SERGIO LAGHI".  
Surveyed in Dry-dock at Bombay.

From the 9th to the 17th September last, the above motor tanker was in dry-dock at Bombay for cleaning of the bottom, withdrawal of tail shaft and renewal of the propeller.

This vessel is classed with the Registro Italiano Navale, but as no Surveyor of this Society was available at that port, the Master entrusted the carrying out of the necessary examinations to the local Surveyor to Lloyd's Register.

The hull & machinery Certificates, dated 17th September, issued by this Surveyor, have subsequently been submitted to the Registro Italiano Navale in order the surveys may be accepted by them and the continuance of the vessel's class granted.

This Institute now inform us that instead of the submitted Certificates, it would be necessary to supply them with a certified copy of the reports made out in this case by the Surveyor to Lloyd's Register who carried out the surveys. In the circumstances we shall be glad if you will kindly let us have, at your early convenience, copy of the requested reports.

Thanking you in anticipation,

Yours faithfully,

AZIENDA GENERALE ITALIANA PETROLI
