VERAGUAS  
      

9th April, 1948.

SYDNEY.

21341, 42, 45, 53. As recommended.

21344. CHELMER. This vessel has to-day been classed #100A- "For coasting service in the East Indian Archipelago" together with a record of LMC 1.48, the machinery certificate to be endorsed to the effect that torsional characteristics have not been considered. As in previous similar cases it has been considered desirable to withhold the figure "1" for the equipment until the chain cables have been tested as required by the Rules at a recognised Proving Establishment.

(RMC). 21245, 21373. As recommended.
