LLOYD'S REGISTER OF SHIPPING

Port. PLYMOUTH

12th February, 1965.

This is to Certify that I have surveyed part of the machinery of the S.S. "MASTER ELIAS" 5500 Gross tons, of Piraeus, for Part M.B.S. as the vessel lay afloat at Plymouth on the 9th February, 1965 and subsequently

and that all my recommendations have been carried out to my satisfaction. I am reporting accordingly and recommending to the Committee of Lloyd's Register of Shipping that the machinery classification should be retained and the following survey records assigned with fresh record of M.B.S. 2,65 when the survey has been completed.

Parts now examined:—

Port and Starboard main boilers throughout together with safety valves and mountings.

To complete the boiler survey the centre boiler remains to be examined throughout, together with safety valves and mountings, all three boilers to be examined under steam and safety valves adjusted, also oil burning system and remote controls to be examined.

R. M. Nicholson.

Surveyor to Lloyd's Register of Shipping
