12th January, 1961

(H)

Dear Sirs,

m.s. "VOLKERFREUNDSCHAFT"

With reference to the classification in this Society's Register Book, I would inform you that to complete the Special Survey of the hull, which became due at the end of July last, the steering gear requires to be placed in order. With regard to the machinery the evaporator safety valves remain to be adjusted to complete the Continuous Survey cycle, and I shall be glad to learn what arrangements are proposed to be made for these matters to receive attention.

Your intentions regarding the completion of the Auxiliary Boiler Survey by the adjustment under steam of the safety valves of both boilers and the examination working of the oil fuel installation will also be appreciated.

Yours faithfully,

Clerk to the
Classification Committee.

Messrs. Deutsche Seereederei,
Lange Strasse 6,
ROSTOCK,
Germany.
