

7th February 1949

ENCLOSURES.

Dear Sirs,

S.S. "ST. ARVANS".

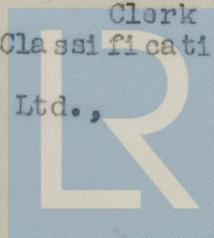

I forward herewith the certificates which have now been issued in respect of the classification of the above-named ship.

You are doubtless aware that the anchors and chain cables on board the vessel were tested by the American Bureau, and while this is quite acceptable to this Society, it is thought well to point out that this procedure does not comply strictly with the Statutory requirements for the testing of anchors and cables on board British ships.

Yours faithfully,

Clerk to the
Classification Committee.

The South American Saint Line Ltd.,
Saint Line House,
CARDIFF.
