71, Fenchurch Street, E.C.3.

5th July, 1949.

Dear Sir,

With reference to your Report No. 3890 on the Steamer "DANUBIAN", I have to say that at the date of build the following machinery spares were required to accord with British Corporation Rules:-

- 2 top end bolts
- 2 bottom end bolts
- 2 main bearing bolts
- 1 set coupling bolts
- 1 set of feed and bilge pump valves
- $\frac{1}{4}$  set of fire bars for each boiler

I shall, therefore, be glad to learn by return mail whether the machinery spare gear now on board conforms to these requirements.

Yours faithfully,

Clerk to the Classification  
Committee.
