TER

re: T.26

February 14, 1949.

S.S. "DANUBIAN" ex "HARALAMPOS P"

In reference to your letter of January 18, you might be good enough to  
advise whether any of the following auxiliaries are fitted in this ship,  
and, whether they have been examined and found in order;

Evaporator.

Auxiliary Condenser

Distiller and distiller pump

Feed heater, feed filter, and feed injector

Please also confirm that the chain locker was examined and found in order.

Particulars regarding the following items are also required so that full  
information may be recorded at this office;

Weights of anchors and length of chain cable at  
present on board.

Official number and code letters.

In order that the scantlings of this ship may be fully investigated, you  
are good enough to send a sketch showing the exact location and thicknesses  
from your drillings of the shell, decks, and tank tops etc.

Yours faithfully,

ASSISTANT SECRETARY

Ronald, Esq.,  
A.
