1st May, 1953.

Classn(S)
CFA

Dear Sir,

Tanker "TUAREG"

With reference to Greenock Report No.24881, I shall be glad if you will kindly ascertain from the Surveyors and let me know whether any P.403 steel was used in the construction of this ship, and if so, obtain from them the particulars required by Circular No.1965.

At the same time, the Surveyors should be requested to confirm that the number of water-tight bulkheads is 14, and not as reported, and that the lengths of the poop and bridge are 112.5' and 43'.

Yours faithfully,

Assistant Clerk to the
Classification Committee.

The Secretary,
GLASGOW.
