Dear Sirs,

m.s. "INA" (ex "AGOSTINO FASSIO")

In reply to your letter of the 1st June I have to say that the Committee are agreeable to the proposed General Examination at Palermo next month with a view to the postponement of the Special Survey until some time before the end of September, 1967. The Continuous Survey of the machinery should be kept up to date during the period of postponement in accordance with the attached list, from which you will note that certain items are now due for inspection and should be dealt with not later than the General Examination.

I would remind you that a Steampipe Survey will be required by the completion of the Special Survey and that the Screwshaft Survey becomes due at the end of September next. The Auxiliary Boiler Survey, due at the end of September next was commenced in March last, and to complete this inspection the exhaust gas boiler requires examination and the adjustment of its safety valves.

Yours faithfully,

Assistant Classification Manager.

The Surveyors,  
GENOA.
