~~Nature of repairs~~

Re

~~Recommendation~~

The Surveyor reports some repairs effected to the Main and Auxiliary machinery, also the harbour oil engine generator and inboard air compressor set now removed and replaced by a new Engine built under the survey of the Registro Italiano Navale and American Bureau. The new Engine satisfactorily installed and tested under working conditions driving either the electric generator or air compressor and found satisfactory. In connection with the installation of this Engine, a new electric driven salt water circulating cooling pump for the new Engine satisfactorily installed.

IT IS SUBMITTED that this vessel is eligible to remain as classed with fresh record of CS 8.61.
