Classn.(S)

DHCK/AB

Dear Sirs,

Motorship "AYIA MARKELLA"

Reverting to my letter dated 30th September, and subsequent correspondence the report of the completion of the General Examination held while this ship was in drydock at Aioi in November has now been received from the Society's Surveyors. In view of the satisfactory nature of the report, postponement of the completion of the Special Survey until June, 1960 has now been approved.

A record of Drydocking 11.59 and the notation Auxiliary Boiler Survey 11.59 have now been assigned. I think it well to add that class has been continued subject to lower port of propeller post (port & star-board) (electrically welded and reinforced 11.59) being specially examined at the next drydocking.

Yours faithfully,

Deputy Clerk to the  
Classification Committee.
