Engine No.

M.V. NORSTRAUM - Fitting of re-conditioned main engine.

It is submitted the Bergen Surveyors be informed
the contents of their letter and enclosures
have been noted.

With reference to the proposed
installation of a re-conditioned main engine
the copies of Norske Veritas material certificates
are noted and the ^{engine} ~~proposed~~ materials could be
accepted in this instance provided the dimensions
of the shafting meet the requirements of the
Rules,† and the engine be installed, and tried
under working conditions all to the Surveyors
satisfaction.

It is observed that plans of the
shafting and propeller will be forwarded in due course
for consideration and as there is no information in
his Office on ~~the~~ the proposed Wichmann engine a
completed engine data sheet should also be forwarded.

Upon completion of the installation
the ship will be eligible for the notation in the
Register Book "Engines ^{made (with date)} fitted (with date)" but
without the distinguishing mark  

Return plan.

Retain copy.

Torsional Vibration characteristics be found satisfactory, ~~which~~ can
be fitted, as required by the Rules -----

The Surveyors should be further advised
by cable
