

"NORSTRAUM"

Information obtained from Mr. Eide by  
Mr. Turnbull when at Bergen 15-16th July, 1949.

-----

The exclusive Surveyors have now completed their examination of the ship and, with the exception of a few minor items which the Surveyors consider may be postponed for six months, they are satisfied, and are issuing a statement that reports have been forwarded to the head office recommending to the Committee that the ship be classed B.S. (North Sea and European Coasting Service) subject to these outstanding items being carried out not later than six months from 14th July, 1949.
