

4th March, 1958.

STOCKHOLM

11383, 93, 94, 98, 99, 401, 02 - As recommended.  
RMC. 11372 - As recommended.

11381 "INGARO" - As recommended. The postponement of the Special Survey until April, 1959 has been approved at this time, and I shall be glad if you will inform the Owners accordingly.

117373 "RUNMARO" - As recommended, except that I would point out it is not the normal procedure to make the completion of a General Examination a condition of class.

11361 "FREDRIKA" - This ship has today been classed +100A1 together with the appropriate notations recommended by you.

It is concluded that the upper after peak tank is suitable for fresh water, but I shall be glad to receive your confirmation on this point.

"COOLAROO" - With reference to your Certificates Nos. ~~1~~16809-10-11-12-13, and ~~1~~16839 covering the six gas condensers from Messrs. STAL, I would inform you that these have now been fitted in this ship, but according to our records the two drawings to which they have been made have not been approved.

In the circumstances I shall be glad if you will forward these plans for consideration as soon as possible.
