Dear Sirs,

Steamer "LEONIDAS CAMBANIS"

Replying to your letter of the 7th April and in confirmation of my telephone message this morning, I have to acquaint you that the Society's Surveyors at Buenos Aires confirmed that they had examined the metalock repairs to the LP cylinder stuffing box, main condenser water box and main circulating pump casing and are recommending to the Committee that the condition of class in this respect be removed.

At the same time, I have to say that there will be no objection to the Steampipe Survey of this ship being postponed until the end of this year.

Yours faithfully,

Deputy Clerk to the
Classification Committee.
