Reference

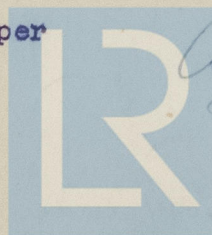

S

Dear Sir,

In reply to the enquiry contained in your Classing Letter of the 17th instant regarding the Refrigerating Machinery of the "STANROYAL", we have to confirm that the cooling down tests were carried out with the machine running at 150 R.P.M., but this was with the stop valves shut in, and no doubt higher speeds are available if necessary. The rated speed of 230 R.P.M. was taken from the copy of Messrs. J. & E. Hall Ltd.'s letter dated 9.6.48 forwarded with your letter 'E' of the 29th June last.

We are, Dear Sir,
Yours faithfully,
THE SURVEYORS.
