D REPORT on the

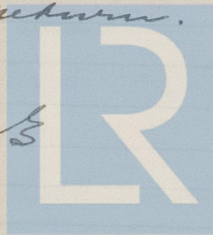

S. S. "Nicolaos" ex Roma

This submitted the surveyor he informed that the owners Representative has called at this office today and has stated that the certificates were handed to the Captain by the Surveyor, with an endorsement regarding the hatchway supports. In view of the statement on the back of his report "The freeboard certificates have been withheld meantime", the Surveyor should state if the certificates have been issued as stated.

As it is understood the vessel has sailed, the Surveyor should arrange for the fore and afters to be made equivalent to the rules, either by renewal or reinforcement on the vessel's return.
