21st May, 1954.

Dear Sir,

Steamer "ANDROS VENTURE"

I have your letter of the 6th instant and note your remarks.

I am, however, desired again to request so far as the machinery is concerned that you will arrange for all plans to be forwarded here for approval, as required by paragraph E.101 of the Rules, or alternatively if these plans have been previously approved for a sister ship, to state the name and Yard Number of the vessel concerned.

None of the pumping and piping plans mentioned in that paragraph appears to have been received or approved in this Office.

Yours faithfully,

Assistant Clerk to  
the Classification Committee.

The Principal Surveyor,  
MONTREAL.
