

"CHARLOTTE MAERSK"

DISCLOSED

SECTION

No.

873

The exhaust gas boiler fitted in this vessel is of the water tube type and is entered in the Register Book as 1 W.T.D.B.

~~The Owners should be advised that under the unified Rules all exhaust gas boilers (irrespective of tube arrangements) need be surveyed, during their first six years of life, only when four and six year old and that accordingly the exhaust gas boiler fitted on this vessel will no longer be considered a water tube boiler.~~

Amend the Register Book from

2 D.B. 180 lb. 1 W.T.D.B. 180 lb.

to

3 D.B. 180 lb.
