

S.S. "IRPINIA" EX "CAMPANA"

RE-CLASSIFICATION

The above ship was built in 1929 and classed with "Registro Italiano" and "British Corporation". The class was withdrawn in 1938, and the Owners now desire re-classification with this Society.

It is submitted the Genoa Surveyors be informed, that in the circumstances, provided the requirements of a special survey of boilers and machinery be complied with, the machinery could be recommended for the notation *L.M.C. (with date).

Plans to be sent to Genoa Surveyors for their guidance and information, and should be returned to this office in due course.
