Dear Sirs,

S/Tug "VERNICOS NICOLAOS"

We thank you for your letter of the 17th April and we apologise for the delay in answering it, due to the absence of Mr. D. Vernicos and of Mr. C. Tsokris abroad.

As you are aware, the continuous use of our bigger salvage tugs in salvages abroad has upset our plans for the repairs of these vessels.

Therefore we shall be grateful if you will do your utmost to secure for us an extension until the month of September for the above vessel, so as to enable us to carry out already started repairs on four other vessels.

As for the above vessel, please note that we have definitive arrangements for the Survey of the Main Boiler to take place in the course of this month.

For your information, the Special Survey of the Engine-Room has been carried out in March 1962 so that after completion of this month's Survey of the Main Boiler, only the inspection of the Hull and of the Tailshaft will remain to be done.

Thanking you, we remain,

Yours faithfully,
NICOLAS E. VERNICOS SHIPPING Co. Ltd.
