AIRMAIL

Dear Sir,

S. S. "NAESS VENTURER"

Further to my letter of November 16 regarding the General Examination for postponement of Special Survey, the Owners have today informed me that the Dunkirk Surveyor recommended postponement when selected cargo tanks have been examined.

The vessel is at present en route to Cartagena for loading cargo. The Owners have undertaken to have selected tanks examined at the first convenient port where we have a Surveyor and when the tanks are empty.

Yours faithfully,

Secretary to the
American Committee

REPORT

CS

Submitted for approval
provided the proposed examination of
selected cargo tanks is not unduly delayed.
(Refer also endorsement dated 7.12.65 requesting
confirmation of other outstanding G.G. items).
