

Enclosures.

3rd January, 1955.

19/FW/DU.

Dear Sirs,

M.T. " EUROPE ".

With reference to your letter of 27th ultimo forwarding plans of Bilge & Ballast Line No. SKR 14a we have to inform you that the same will be approved provided the remaining requirements of the Rules for Pumping and Piping be complied with so far as they are applicable.

It is understood from our telephone conversation this morning that the 40-ton independent pump is to be replaced by a second 60-ton pump, and that an existing main-engine driven pump having a capacity of 23 tons is also connected to the bilge main.

Two copies of the above mentioned plan are returned herewith.

Yours faithfully,

For the Surveyors.

The Surveyors,  
Kiel.
