4th November, 1954.

Eng.

Dear Sirs,

M.S. "EUROPE"

I acknowledge the receipt of your letter of the 30th ultimo in connection with the proposed conversion of the above vessel, the contents of which have been duly noted.

In reply, I have to inform you that the proposal to drain the ore holds through drop valves into the double bottom ballast tanks is not acceptable, it being considered that normal bilge suction led to the pumproom or machinery space should be provided for these holds

Yours faithfully,

pro Secretary.

R

The Surveyors,
OSLO.
