

Donkey boilers for 'KAPITAN BELOUSOV'.

Sandvikens Yard N° 353

Helsingfors

In the Secretary's letter of 23-3-54 to, the Surveyors were requested to forward the results of the routine tests together with radiographs of the welded seams of these boilers before consideration could be given to the inclusion of the Firm's name in list of Firms recognised by the Committee for the manufacture of Class 1 Fusion welded Pressure Vessels.

The Surveyor should not have submitted these boilers for acceptance until such time as the information had been supplied and approved.

23/8/55

Submitted the drawings as advised in terms of above and instructed to send the information without delay

23/8/55.
