Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

7th August, 1935.

Dear Sirs,

S.

With reference to your letter of the 30th ultimo enclosing one from Messrs. Petters Ltd., of Yeovil, regarding the machinery certificate for the m/v "JOLLY DAYS", built by Messrs. John Lewis & Sons, Ltd., I have to inform you that, upon enquiry being made of the Aberdeen Surveyors, to whom the hull and machinery certificates of this vessel were forwarded, to be handed over on payment of the fees, they stated that the certificates in question were duly handed to Messrs. Lewis, who have informed them that they have not yet handed over either of the certificates to the Owner.

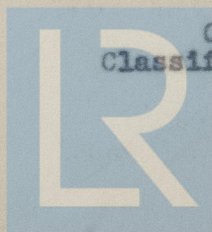

No reason is given for the Builders' action, and in these circumstances it will be well for Messrs. Petters to suggest to the Owner that he should take the matter up direct with Messrs. John Lewis & Sons, Ltd.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,  
SOUTHAMPTON.

Clerk to the  
Classification Committee.
