17th December, 1917.

Dear Sirs,

With reference to the Classification in this Society's Register Book of the Steel Screw Vessel "LUTONA" I beg to remind you that the inner surface of the bottom plating which is coated with tar and cement requires to be examined by the Society's Surveyors before the end of the present month.

I shall therefore be obliged if you will kindly let me know when and at what Port you expect to be in a position to have this done.

I am, Dear Sirs,

Yours faithfully,

Secretary.
