Ans.....

Dear Sir,

M.V. "SANTO".

In reply to your letter of the 11th instant we have to confirm that the electrical arrangements are generally in accordance with your sketch which is returned herewith, also that it is not intended that the two generators should run in parallel.

The switches marked A & B on the plan perform no useful function but are connected in the circuit.

Yours faithfully

THE SURVEYORS

PER.

The Secretary,  
London.
