I think it well to point out that the machinery class was subject to the water jacket of the main engine No.7 unit being examined and dealt with as necessary on the ship's return to the United Kingdom by the end of December, 1956.

Having regard to the fact that No.7 unit was examined by you at this time, I shall be glad to learn how this condition of class now stands.

2043 "TERUTAMA MARU" - As recommended.

The proposal to postpone completion of the Special Survey until April, 1957 has been approved, and I shall be glad if you will inform the Owners accordingly.
