S/S "TORNAGALEONES"

Dear Sir,

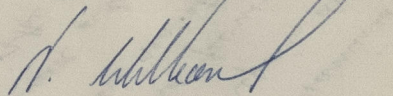

I have received a request from prospective buyers of the above vessel regarding the possibility of our carrying out a survey as per copy of letter attached.

I would add that it is stated the vessel is proceeding finally to Trieste for scrapping and if we agree to carry out a survey, she will be presented for examination in drydock here in Valparaiso.

I would be pleased to hear at your earliest convenience whether or not the survey may be undertaken and the extent of such a survey. The vessel carries the notation "*BC class withdrawn, Reported defects 9/61" in latest copy of the Register Book at this office.

With regard to "Report defect 9/61", I understand that nothing has been done about the defective boiler furnaces and it is unlikely that the Owners would be prepared to do anything about them under the present circumstances.

Yours faithfully,

N. Williams
