ROTTERDAM, 28th June, 1965
Westblaak 32, P.O. Box 701

Dear Sir,

" GUANG MING " Rot. rpt. 60636

In reply to your classing letter of the 18th instant I may inform you that the vertical welds of the tie-rod boxes of the bedplates are full penetration welds, connection vertical brackets to inclined longitudinal members are fillet welds.

The whole bedplate is stress relieved upon completion of welding and afterwards welds magnetically crack-detected.

Yours faithfully,

The Secretary,
LONDON
