12th August, 1955.

Dear Sir,

With reference to the Screwshaft and Boiler Surveys, which became due on the Steamer "BARBOSA" at the end of January and March last respectively, and to my letter of the 10th May addressed to the Owners, a copy of which was forwarded to you, I think it well to quote herewith the following further letter dated the 11th instant received from the Owners:-

"With further reference to our letter of the 3rd May last regarding the classification of the above vessel we would advise you that negotiations are now proceeding for the disposal of the "BARBOSA", but before these are concluded and the vessel moved, our associates intend to carry out the boiler and screwshaft surveys which are at present outstanding.

We will keep you informed of further details in due course."

Yours faithfully,

Clerk to the
Classification Committee.
