The Principal Surveyor

New York.

Dear Sir:

SS. "BARBOSA"

I herewith enclose copy of letter received from Mr. J. Drenthe, Superintendent Engineer of the Shell Caribbean Petroleum Company, of Venezuela.

The boiler of this vessel was surveyed by me on March 18, 1954 at Maracaibo as stated on Report No. 1627, issued from this office.

The boiler Safety Valves were not then adjusted and to save further expense of an additional visit to Maracaibo, it was requested, as in previous surveys, that a letter be forwarded when the valves were adjusted by the Owners' Representatives.

Yours faithfully,

*W D Wardle*
