ANSD.....

Dear Sir,

"RINGFJELL".

In reply to your classing letter of the 16th ultimo, we have to confirm that the new length is 124ft.

Regarding the new Diesel Generator sets they are similar to ones fitted in Sirefjell Hankefjell and Else Skou for which First Entries and Torsional vibration characteristics have already been forwarded.

The deferred reports are returned herewith.

We are, Dear Sir,
Yours faithfully,

J. B. Ball
pro. The Surveyors.

The Secretary,
LONDON.
