

KIEL, 7th May 1942.

"KRIEGER" ex "KRIEGER"

The Poop has been extended 8 meters further forward, the old bulkhead no longer intact and the new bulkhead of 8 mm plate with single stiffeners $6" \times 3" \times \frac{1}{8}"$ spaced 23" apart and intermediate D.A. stiffeners $8" \times 3" \times \frac{7}{16}"$, all are bracketed top and bottom. There are two openings $32" \times 20"$ closed by hinged steel w.t. doors capable of manipulation from both sides.
