-----

The Second Special Survey No. 3, which became due on this trawler in August, 1937, has been partly held, and successive postponements have been agreed to by the Classing Committee, the Lisbon Surveyors being informed on the 6th ultimo that, unless the vessel had come under their inspection for completion of the Special Survey and repairs before the 22nd of that month, the Committee would have no option but to deal with her class.

The Lisbon Surveyors have now forwarded a copy of a letter from the Owners intimating that as they are of the opinion that the compulsory examination of the Official Commission of Survey is carried out with the utmost stringency in order to maintain vessels in an efficient state, they have decided to discontinue the vessel's classification with this Society.

The year of grace expired at the end of August last.

The Classing Committee had the case before them on Tuesday, the 10th instant, when they decided to give instructions for the vessel's class to be expunged from the Register Book with a Red Line (—) indicating non-compliance with the Society's Rules.

  
12th January, 1939.
