PORTO 28th December 1938

Steamer "FAFE".

Dear Sir,

The Undersigned on his last visit to Lisbon did not have the time to call on you to advise the following, which is done by this means:

This Company being of the opinion that the examination carried out by the official Commission of Survey is done with the utmost rigour in order to maintain vessels in the most perfect state of condition and navigability, has resolved to desist from the surveys imposed by Lloyd's Register of Shipping, without on its part, this showing any lack of respect for that important body.

With the greatest esteem and consideration

We sign,

Yours faithfully

(Signed) "Illegible"
