

First Entry Reports on hull, machinery and boilers have been received in each case of the Admiralty Steam Lighters Vic I to Vic 32. In subsequent cases it has been decided to send a boiler report only, with a certificate on Rpt.10 for the hull and machinery attached. These reports will be entered on the boiler cards as "white ticket" cases but for the duration of the war they will be kept in the Admiralty boxes with the other "Vic" First Entry reports. A note in pencil to this effect may be made in last column of boiler card.
