LEEDS.

24 JUL 1952

18th July, 1952.

This is to Certify that

T.P. GIBBESON.

the undersigned Surveyor to this Society did at the request of

Messrs. Palapone Engines Ltd., Wakefield, attend at their works on the 24th June, 1952, and subsequently, for the purpose of examining during construction and testing -

One 3 Cylinder, 33 B.H.P. Heavy Oil Engine No. 13747

made to the order of Messrs. Rollo N.V. Alexanderstraat 10, Den Haag, Holland, Order No. Rotech 8731.B, and intended for N.V. Scheepsborkwerf Machinefabriek "Deklop" Sliedrecht.

This engine has been constructed in accordance with approved plans and the Society's Rules, and so far as could be seen, the materials and workmanship are good.

The crankshaft has been constructed under the supervision of the Society's Surveyors in accordance with the Rules, and the cylinder blocks and heads have been tested by hydraulic pressure and found satisfactory.

The completed engine was tested under full load conditions and finally on 10% overload against a brake dynamometer, and found satisfactory, and the governing arrangements tried and found in order.

The torsional vibration characteristics of this engine have not been approved.

The engine was partly opened up after test, and the parts examined were found to be in good condition.

For purposes of identification, the bedplate of the engine was stamped at its after end thus:-

LLOYD'S
