No.

6113.

For the CHIEF SHIP SURVEYOR AND CHIEF ENGINEER SURVEYOR

(In cases which have to be submitted to the Classing Committee "the endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case so that the Classing Committee may have all the salient points presented in the endorsement."—(Extract from Sub-Committee's Report, 24/5/52.)

~~11.53.~~ SPECIAL SURVEY/ PARTLY HELD. Auk. 11,53.

due 11,53.

When proposed to be completed

on of Survey held, &c. EXAMINATION & TESTING of Nos. 1 & 2 D. B. tanks.
EXAMINATION of the forward hold.

Special Survey (B), due 11,53, commenced Auk. 11,53 by the examination and testing of Nos. 1 & 2 D.B. tanks and the examination of the forward hold.

Postponement of completion of the Special Survey until 11,54 approved provided the remaining requirements of a General Examination were held - see letter dated 24.2.54. This General Examination has until now not been held.

In a letter dated 6.10.54, the Auckland Surveyor advises that as a result of an examination held recently considerable repairs to the ship's structure are required before completion of the Special Survey, and since this cannot be arranged for by the Owners at this time, they, the Owners desire the class to be withdrawn until such time as it may be found convenient to take the ship out of commission for the period necessary to carry out the required work for reclassification.

While D.B. tanks Nos. 1 & 2 and fore hold when examined for Special Survey August/November, 1953 were found in good condition, yet from information now furnished the condition of the structure in the A.P. tank and partly in the E.R. O.F. D.B. tank indicate that repairs should not be deferred unduly, and in view of this the case is submitted for the consideration of the Committee.
