Dear Sirs,

## CLASSING LETTER

15031 "ST. AGNES". As recommended.

I would point out, however, that with the exception of the items examined at this time, no part of the machinery has been examined since the Continuous Survey of machinery cycle was completed in March, 1966.

The Owners should, therefore, be advised that approximately 20% of the machinery should be examined each year and early arrangements should be made for the survey cycle to be advanced.

Yours faithfully,

pro Classification Manager.

The Surveyors,  
FALMOUTH.
