Dear Sirs,

## CLASSING LETTER

4464 "NARRA". As recommended. I have to inform you that this vessel is not dealt with on the Continuous Survey system and your recommendation should have been BS (with date) when the survey has been completed.

4436 "KOWA MARU". As recommended. To complete the Auxiliary Boiler Survey for the record of ABS 10.62 the safety valves of the exhaust gas economiser require to be adjusted under steam, and I shall be glad if you will request the Owners to forward the statement signed by the Chief Engineer indicating the pressure to which the valves have been adjusted.

Yours faithfully,

pro Clerk to the  
Classification Committee

The Surveyors,  
YOKOHAMA.
