

## REGISTER OF SHIPPING OF THE USSR

## REPORT № 1491/H

Port of NAKHODKA „ 1st June 19 66

Ship's Name "OLINDA"

Type Steamship Date of build 1950

Owner British India Steam Navigation Company Ltd. Gross Tonnage 5224

Port of Registry LONDON Power of Main Engine 3670 HP

Flag \_\_\_\_\_ Class of engine IMC

I, the undersigned Surveyor of the Register of Shipping of the USSR KIRJAKOV Y.D.  
(name)

By the request of the ship's Master

I have made survey of prime mover (steam engine) of Starbd Generator under working conditions.

The results of survey are:

1. The prime mover was repaired by the vessels engineers.
2. The prime mover has the new parts: cylinder block, cylinder cover, piston, piston rod, crosshead, crankpin bearing and other parts.
3. The new parts were manufactured by same firm, but not covered with Lloyd's Register of Shipping certificates.
4. At the time of the test the load was up to 220 Amps, which is the normal consumption of ship's equipment.
5. The inspection of the new installed parts after the test showed no defects.

The prime mover of the generator can operate continuously at full load, but not exceeding 220 Amps.

In respect of survey now hold the ship's class is confirmed providing the Generator is tested at rated load 318 Amps.
