Dear Sirs,

s.s. "TRANSKIPPER"

The above vessel is presently discharging a cargo of logs at this port and is expected to terminate her present voyage at Tokyo on or about 9th inst.

On completion of discharge at Tokyo, the owners intend to layup the vessel; however, up to now her layup port has not yet been decided.

Under these circumstances, we shall be much obliged if you will extend two months her annual boiler survey certificate and drydocking in order to enable the vessel to proceed to her layup port.

Kindly confirm and with thanks in anticipation.

Yours faithfully,
