Telex No.: 24305

Telephone: ROYal 9166

30th May 1960.

Dear Sirs, Wasa Mek. Verkstad
Engine No. 234.

Classn.C.

With reference to your Rpt. No.7037 for the above engine, I have to point out that an engine of this size requires two crankcase explosion relief devices, having an area in accordance with the rules, and arrangements should be made for these to be fitted.

A forging certificate for the crankshaft should be attached in each case.

Yours faithfully,

The Surveyors,
HELSINGFORS.

pro Clerk to the
Classification Committee.
