Centre boiler (corroded) being specially examined
at the next MBS

4E

Received by Chief Engineer Surveyor.....

Received from Chief Engineer Surveyor.....

SHIP'S NAME

INCHCASTLE

REPORT

KOB

No. 10520

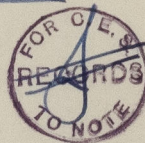

MBS due 6/62 now partly held.

SOL The above items examined when boiler surveyed
and the Surveyor recommended reports the shell plate,
internally, at bottom found pitted, both furnaces corroded,
smoke and stay tubes wasted also a considerable number of
Combustion chamber stays and girdler stays, both C.C.
wrapper plates, back end and tube plates wasted and
he recommended the shell plate where pitted be wire brushed
and coated with asphener; both furnaces, all smoke and
stay tubes, wasted C.C. stays and girdler stays to be renewed,
the ~~C.C. wrapper plates~~, and the wasted plates to be dealt with.

He recommended the centre boiler not to be used
until repaired

It is submitted that the
vessel **WILL BE** eligible
for the record MBS 5762
when the survey has been
completed. as listed over

Subject as recommended and
without subject above
