Vessel's Name, Motorship "INDIAN REEFER".

QUESTION.

I have to acquaint you that the class of this vessel is subject to the port screwshaft being drawn for examination of the bakelite cover of the sternbush, when the vessel has been in service for a period of one year.

It is observed that the vessel is now at your port, and in the circumstances I shall be glad to learn whether she is immobilised definitely, and whether you are able to furnish me with any information as to her future movements.

ANSWER.

Date:— 23rd. December 1940.

Motorship "INDIAN REEFER".

The Owners Representative states that this vessel is laid up here indefinitely, and before being placed in commission arrangements will be made for drydocking her for examination of the port stern bush either at Montevideo or Buenos Aires.

G. Williamson.
