

19. 6. 62

Sir.

Installation & Trials of new
type of berthing - Taken
"CENTRAL CO."

I have pleasure to inform
that in accordance with
records in possession of your
representative in Rio Janeiro,
the system of berthing
& capsizes were modified
the above vessel. This was
found necessary on account
the serious deficiencies observed
which affected the safety of the
vessel.

The said modification was
put out between the

Lloyd's Register
Foundation

2
/62 and 8/6/62 by the
nd 'VEROLME ESTALEIROS
UNIDOS of Brazil, S.A., of
wacanga.

As it was understood that
addition to the inspection
the installation of the new
chamisso, representatives
of the Classification Society
are also to carry out the survey
the berthing trials and of
the working of the system
which were held on the 8/6/62
the proximity of the above
rd, a surveyor to this end
is requested by the personnel

3

nd.

Due to the negative
course of your answer,
witnessing the refusal
to, we shall esteem
a favour if you will
add enough to inform
on this matter.

Yours
